**Explain why::**

I have served on civic organizations that relate to quality of life issues for communities where I live, and have lived for most of my adult life. There is current neighborhood development going on in Missouri City that will effect the quality of life in Missouri City neighborhoods. My past involvement with drainage issues, environmental issues, and quality of life planning for neighborhoods in both Missouri City and the City of Houston gives me the desire to work in the best possible interest of both the residents and the City of Missouri City, Texas after studying related governing or planning documents for each project that may come before the commission. My experience with contract and specification creation, and analyzing specifications for the bidding of multi million dollar supply and service contracts, one time major purchases and services gives me the ability to examine all sides of issues by the presiding rules and, depending

on the requirements, by the desire of the residents and any limitation(s) or requirement(s) of the city.
