Sensory Garden Sponsorship Opportunities

The Missouri City Parks & Recreation Department is proud to develop a Sensory Garden that can be used by the community for educational or leisure purposes. Specific plants and ambiance features have been selected to provide a safe space for visitors to explore all of their senses through the natural world. The petite garden will include raised garden beds for ease of access while caretaking, as well as three beds that are specifically ADA-accessible.

Local businesses, groups, or individuals are invited to sponsor the efforts to create this wonderful Sensory Garden! Different levels of sponsorship are listed below and are based on a one time program commitment, though supporters are welcome to be a sponsor more than once. For questions about the Sensory Garden Sponsorship or continual caretaking opportunities, please email Allison.vickery@missouricitytx.gov.
